

QUALICUM LOW TIDE TABLE

Observing the ocean shore at Qualicum Beach over many summers, these sculptural forms echo the rhythm of the tides.

The Qualicum Series is comprised of three table sizes; the Low Tide table is the smallest of the series. Intended as an end table or a narrow coffee table, the piece captures the eye while stimulating an interior space.

Made from Canadian marble and steel the top is cut to reflect the ever-changing fluctuation of stones on the beach.
